

Creating Parent & Student SSAT Accounts

This step-by-step will explain how to create parent/guardian and student accounts for the SSAT.

2 Types of Accounts

- **The Parent/Guardian account has the ability to:**
 - Register for SSATs
 - Print SSAT Admission Tickets
 - Request Testing Accommodations
 - Add/Remove Score Recipients
 - Purchase Services
 - View Scores
 - Complete and Submit SAOs (Standard Application Online)
 - Consent to and Register Children for The Character Skills Snapshot
- **The Student account has the ability to:**
 - Print SSAT Admission Tickets
 - Use SSAT Practice Online
 - View Scores
 - View SAO and Complete SAO Student Essay
 - Take The Character Skills Snapshot

Also note...

- You only need to create one parent/guardian account, even if you have multiple students.
- You will have an opportunity to create more than one student account during the process.
- While you **must** create a student account initially, if you do not wish for your student to have access to the features in their account, you can disable it.
 - Remember, student accounts do not have the ability to make registration changes, apply for accommodations, or make purchases.
